Subject: Microsoft Settlement

Dear Attorney General:

I urge you to settle the Microsoft Case. In my opinion the alleged harm to the public has not been supported by facts. Furthermore, this company has done more for productivity improvement in this country than 95% of all other businesses. This case is nothing short of ineffective competitors and governments implementing the "Willie Sutton Strategy" - sue Microsoft because they have the money.

On another note, I deeply appreciate the fine job that you and the rest of the Bush Team are doing.

God Bless !

Sincerely,

Roland H. Fredette
